Software Engineer – Full Stack

Location: Kingston, Jamaica

Category: DCH Platforms and Products

Sub Category: Engineering

Req ID: 11466

ZS is a professional services firm that works side by side with companies to help develop and deliver products that drive customer value and company results. From R&D to portfolio strategy, customer insights, marketing and sales strategy, operations and technology, we leverage our deep industry expertise and leading-edge analytics to create solutions that work in the real world. Our most valuable asset is our people—a fact that's reflected in our values-driven organization in which new perspectives are integral and new ideas are celebrated. ZSers are passionately committed to helping companies and their customers thrive in industries ranging from healthcare and life sciences, to high-tech, financial services, travel and transportation, and beyond.

ZS's Digital Connected Health Team helps healthcare companies including pharmaceutical and med-tech to discover, develop and deliver digital services to customers. We engage from end-to-end from shaping organization strategy (where to play, how to win) to developing digital solutions for patient services across disease journeys, drug discovery including de-centralization of clinical trials, advancing digital portfolios through enabling digital therapeutics and Software as Medical Devices (SaMD).

Job Overview

The Senior Software Engineer (UI) will be responsible for designing and implementing web applications, web services/APIs, and full stack modules for custom web and mobile applications. You will be responsible for developing highly scalable applications following object orient principles.

You should be able to review user requirements, estimate feature completion, contribute to, and participate throughout the entire system development life cycle.

Responsibilities and Duties

- Demonstrate a passion for software development with interests in quickly learning modern technologies.
- Implement features with some guidance from leads and managers
- Implement solutions for UI, web services/APIs, middleware, and databases.
- Create technical design documents for features you own
- Code and debug custom-built applications
- Upgrade and maintain existing applications
- Collaborate with cross-functional teams including user experience designers, user experience researchers, and product managers to ensure our solution meets user needs
- Able to accurately estimate development, testing and deployment effort and time for features/user stories
- Collaborate with leads, quality engineers and architects to ensure implemented solution aligns with requirements and established architecture guidelines.
- Follows organization and industry standards for security, performance, and architecture in implementing your own features.

Qualification and Skills

- Bachelor's degree in computer engineering/computer science or related field
- 1 – 3 years of experience developing multi-tiered applications
- Experience with one or more technology stacks in Asp.Net, Java, NodeJs, and PHP UI
- Experience with one or more databases such as MS SQL Server, MySQL, NoSQL, PostGres, etc.
- Experience with front-end technologies such as CSS3, HTML5, Javascript/JQuery, Angular, Vue, etc. is a plus
- Experience consuming REST API using asynchronous methods.
- Working experience with version control systems (Git/Gitlab) and branching strategies
- The ability to collaborate in a team environment, and be able to adapt effectively and quickly to changing environments
- Strong written and verbal communication skills
- Excellent organizational and leadership skills
- Experience working in Agile Software Development Methodology ecosystem

ZS is a global consulting firm. Fluency in English is required; additional fluency in at least one European or Asian language is desirable.

Candidates must possess work authorization for their intended country of employment.

ZS offers a competitive compensation package with salary and bonus incentives, medical, dental and life insurance programs. We are an Equal Opportunity Employer.
