

MAKE TRINIDAD AND TOBAGO YOUR NEXT OUTSOURCING DESTINATION

Trinidad and Tobago is a twin island republic at the southern end of the Caribbean island chain, ideally located below the hurricane belt. We are an attractive emerging nearshore location for BPO within the English-speaking Caribbean.

WHY TRINIDAD AND TOBAGO?

Dynamic & Talented Workforce

A highly educated, technologically savvy and English-speaking labour force is readily available for hire.

Competitive Labour Costs

Wages are both competitive and comparable to other nearshore destinations.

State-of-the-Art Digital Infrastructure

Available ICT services including broadband, WiMax mobile broadband, dedicated internet access, advanced and next generation IP networks.

Work-from-Home Models

Our robust telecommunications infrastructure provides the advantage of safely moving your employees to digital work-from-home models.

Nearshore Advantage/Location

Air travel to major cities such as Miami, New York and Toronto is only 3.5 to 5.5 hours.

Our location below the hurricane belt significantly reduces the risk of business disruption during the hurricane season.

Special Economic Zone Incentives

Attractive incentives support middle and back-office processing for BPO providers.

Commercial Real Estate

Available real estate for contact centers in central locations across the country.

Hear from some of our BPO investors

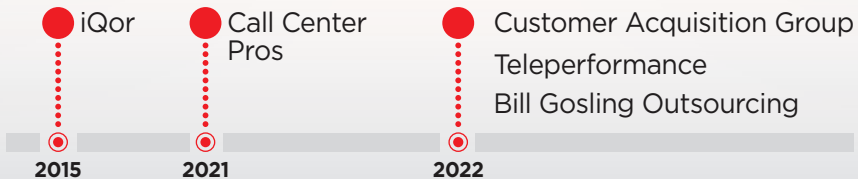

"iQor has expanded in Trinidad and Tobago to meet the growing demand for BPO digital services. Trinidad and Tobago offers an educated workforce skilled at providing high-quality and rewarding customer experiences that make people smile. The focus on technology and proximity to the United States, convenient transportation, and placement in the Atlantic Time Zone add to Trinidad and Tobago's appeal. We at iQor are delighted to be part of the local community here, now and in the years to come."

Dr. William Huggins, Vice President of Operations and Country Lead for iQor Trinidad

"I conducted an extensive online search for the right hurricane-free nearshore destination for my project and found InvestTT's website through Google. Another Caribbean island was also shortlisted but I found that the weather pattern in Trinidad and Tobago and the quality of labour were far better."

Michael Austin, Founder Customer Acquisition Group
